- Their finishing is upscale, suitable for clients with sophisticated tastes.

Large Decorative Doors

PIVOT DOOR

Made of aluminum and covered with treated wood
Opens 360 degrees and can reach a height of up to 3 meters

And the width of a single door can reach 1.5 meters.

It is also possible for each side to have a different color
It allows for an aesthetic separation between large halls and provides outstanding solutions

Large Decorative Doors

SLIDING DOOR

The sliding door is made of aluminum and mixed with treated wood. It can reach a height of up to 3 meters and a single door width of 1.5 meters. It can have two, three, or even four panels to cover large spaces between halls. It is also possible for each side to have a different color, It has soft-close functionality for opening and closing. It does not contain bottom tracks on the floor, so it works with a hanging system. It allows for aesthetically pleasing separation between large halls and offers excellent solutions.

Large Decorative Doors

GHOST DOOR

The ghost door

Made of aluminum and covered with treated wood

Its height can reach up to 3 meters,

and the width of a single door up to 1.5 meters.

Its area should not exceed 3.5 square meters.

Its track is hidden in the wall and not visible.

It has soft close for opening and closing.

It can also have a different color on each side.

It allows for aesthetic separation between large halls and offers unique solutions.

Large Decorative Doors

FOLDING DOOR

Door made of solid natural wood (Meranti)
Covered on both sides with chipboard wood
Door thickness 5 cm
Its hinges are hidden
Very good sound insulation
Maximum height is 3 m
Can be custom-made to any size the customer needs
above 2 m
Can come in a patterned or plain design
Available in many color options
Provides practical and aesthetic solutions for
separating large living rooms and is safe for children to
use; considered one of the heavy and decorative doors

Accessories

We excel in the variety of accessories used for doors, from ordinary high-quality handles to magnetic handles and smart handles.
